

UNIBILT CUSTOM HOMES

**HOMES BY
JDM STRUCTURES**

MANY SATISFIED FAMILIES

“The materials were all top quality and the floor plan was very open and spacious. I would recommend Unibilt to anyone looking to build their new home.”

“We designed a totally custom Unibilt plan.... We are very happy with our new home and how easy it is to heat. We have already referred several people to Unibilt.”

“Thank you all for putting so much care in the construction of our new Unibilt home.... Every last detail was completed as if it were being done for a family member.

FASTER • BETTER • LOWER COST

SUPERIOR QUALITY, LOWER PRICES

With higher quality at a lower price, your home-building budget will go further than you ever thought possible.

CUSTOM HOMES

Building like Unibilt does – with almost no exposure to the elements – results in a stronger structure with more precisely cut components. With our coordinated crew of expert craftsmen guiding every stage, you have, quite simply, a better idea in custom home construction.

A proven, custom process. More than 12,000 homes built over 40 years. Hundreds of options. Custom designs that are easier and less expensive to implement.

Streamlined work. Much shorter, more predictable timelines. Site prep and construction occur simultaneously. Shorter construction loans.

Superior quality. Precision-fitted, stronger and better insulated. Built indoors with total weather protection, preventing water damage, warping and mold.

Reliable pricing. No construction surprises or unpredictable cost overruns. Comes with plumbing, wiring, cabinetry, countertops, flooring, carpet, drywall, paint, windows, doors and much more.

Far better value and much greener. Significantly less material waste. Sites are kept clean and re-use/recycling is enhanced.

Modular homes are not “manufactured” or “kit” houses.” Instead, they are today’s best way to get more quality and value for your money.

COMMERCIAL CONSTRUCTION

Multi-family, duplex and triplex structures (including student housing) are perfect places to put the many advantages of Unibilt custom modular construction to work. Controlling initial costs can make all the difference in long-term profitability.

YOUR UNIBILT CONNECTION

JDM Structures, with more than two decades of experience as a custom homebuilder, is proud to be a member of the Unibilt network of builders. At our Unibilt Model Home Center, you can experience first-hand the variety, quality and many advantages of the super-efficient Unibilt process. We can help you with site selection, home model choice, design decisions and all construction services, from financing and permits to site prep and finishing touches.
